The Parent of Many Working Girls' Socielles-Co-operation, Self Government and Self Support Their Fundamental Principles.

The whirligig of time introduces no more remarkable transfermations than that wrought by the so called "emanciidea that "men must work and women as ever, but they are doing an amount of work that, while mest honorable and praiseworthy in itself, is disgraceful to the civilization that requires it. This wonderful transfermation of economic

A COOKING CLASS.

ing women in the literal sense of the ing and perhaps that of their families by the labor of the hands rather than of cordance with the generally accepted rate of payment for manual toil, are nuto their more fortunate sisters the necessities of life-books, pietures, musio and similar pleasures. The purposo of this first club and of its numerous outgrowths is best expressed by a definition given in one of the printed docciation of Working Girls' Societies. "A working girls' society is an organization formed among busy girls and wemby the members for the members and strives to be self supporting."

The practical nature of the undertaking was at once so evident that within a year of the organization of the first club the New York Association of Working Girls' Socioties was formed, 11 clubs joining as members. The association had in its membership at the beginning and for several years clubs in Brooklyn, Massachusetts, Connectiont and Philadelphia. Each of these places has now an Association of Working Girls' Societies of its own, which shows how rapidly the olubs have multiplied.

The rules of government of each club are contained in a constitution and bylaws, as in more specifically social clubs. That the letter of the law differs need not be added when it is understood that working girls' societies are established with an eye to material as well as mental benefits. Authority is vested in a corps of officers, consisting of a president, sceretary, treasurer and their assistants, with such minor officials as the demestic economy of the individual club renders necessary. These offleers are elected by ballot. A business meeting is held monthly, at which business matters are presented, discussed and decided by vote of the members. Candidates for membership must be over 14 years of ago and recommended by a responsible person.

The pecuniary department of every club is a vital portion of its being, and in a society of working wemen this is felt with especial force, for the necessary expenses, although modest in themselves, are large in proportion to the resources. A small initiation fee is paid by those who enter the elub, and there are also moderate dues, payable monthly instead of yearly. The finances are additionally recruited by means of entertainments, fairs and sales of fancy articles, enterprises which are carried through by the members. Out of the entire fund must come the rent, the cost of light, heat and neodful furnishing, the hire of a piane, subscriptions to magazines and incidental expenses. A piano and the current periodicals would be beyond the means of the girls individually, but by co-operating they can enjoy these and other indulgences and have pleasant rooms in which te spend their evenings.

A general impression seems to prevail that these societies are charitable institutions. This, as has been already shown, is by no means the case. They are organized by wago carning women and girls for mutual advantage, are founded on a self supporting basis and do not depend for existence on public or privato philanthropy. Gifts of books, piotures, furniture and other things are often presented to a club by its friends and are accepted and appreciated, but the solicitation by members of such denations or of money is deprecated.

Active club life is of course confined to evening henrs, as the women are at work all day. The rooms are open every weekday night for the use of members, who may read, write, sew, eenverse, play or otherwise occupy themselves, according to their funcy. Each club has a circulating library, and there are often volunteer teachers who give gratuiteus instruction in needlewerk and other branches to these who wish to learn. Lectures on hygiene are delivered at all the clubs and classes formed for physical exercise. Some societies employ at a monthly salary a

FORGIRLS WHO WORK | general privileges which accompany membership the co-operative principle is made use of in securing various additional advantages at a reduced rate. Classes in dressmaking, millinery, bookkeeping, cooking and other useful accomplishments are thus formed, each pupil paying her share of the exact eost, and summer boarding places are established where members may enjoy a country holiday at the lowest possible price. A nmtual benefit fund has been organized by the New York association as a provision against the expenses of pation of women." Charles Kingsley's illness or death and an cuployment burean founded for the purpose of obtainmust weep" is out of date. Women in ing positions for those who are out of New York are doing as much weeping work, successful applicants being required to pay a small fer.

Although the societies deal necessarily with practical affairs, their intellectual and social aims are kept continually in view. As membership is not strictly conditions is in a measure responsible limited to working girls, it often infor the Working Girls' elub, founded cludes a number of women more fortuby Miss Grace II. Dodge. It is for work. nately situated in a worldly sense, but the proportion is so small that it does not affect the distinctive character of the general body. In some of the clubs one night of every week is devoted to a debate on a question of social ceenenry or a current topic of public interest. A chairman presides, and the discussion is open to all. The fact that education ean only develop, not originate, is berne in with especial force on the mind of a listener at one of these debates. The speaking is ready and to the point, and there are manifestly as many clear heads, quick brains and finent tongues among working girls as among women who have had wider opportunities and greater leisnre for self enligation.

Sociables are oceasionally given, to which members may invite their brothers and friends, and a number of societies have a Christmas tree every year for poor children. A great deal of genterm, wemen who earn their own liv- nine charitable work is done for the benefit of persons outside the membership. Clothing is made and sent to the the head, and, receiving wages in ac- needy, help given to destitute families, and certain clubs have instituted loan baskets, which are supplied with necesable to ifford those linxuries which are | sary articles and sent to those sick persons who would otherwise be without shine in good society.

requisite comforts. girls too young for regular membership and for members who have married, but do not wish to lose touch with their uments issued by the New York Asso. former circle. In many clubs a branch of the penny provident fund has been established to receive individual deposits. The New York association, which en to seeure by co-operation means of is the parent of all the others, has an self improvement, opportunities for se- auxiliary society, the purpose of which ciul intereourse and the development of is the promotion and assistance of new higher and nobler aims. It is governed clubs and the accomplishment of other

IN THE CLUB LIBHARY.

publishes a monthly journal called Far and Near, which is issued in the interests of working women and serves as the organ of the societies.

The clubs are unsectarian in character and make no distinctions in regard to different sorts of work. Every class of labor is represented, and women from the kitchen, the factory and the shop are united in a common interest. By this alliance they have helped themselves and each other. Working girls' societies are no longer an experiment. They are an institution, and with coeperation, self government and self snpport as their fundamental principles have before them a prespect of increasing power and nsefulness.

#### GRACE BARTON ALLEN.

Law Lectures to Women. The course of law lectures to women in the University of the City of New York goes bravely on. It was founded under the auspices of the Woman's-Logal Education society. It was designed to make wemen in business or those who managed their own property familiar with such law as they would need in their enterprises. In the capacity of executrix, administratrix, guardian or assignee they will be ablo by taking the woman's law course in the university to save themselves many a dollar. Besides the worthy object already named the class constitutes a preliminary law course for ladies who design to take up the study of law regularly. Stenographers in railroad and legal offices can secure better pay if they also understand law. It is to securo this pay that numbers of women are now qualifying themselves to be law graduates.

#### Her Polut of View.

The excellence of the woman's page of the Sunday New York Times has frequently been mentioned, particularly the wit and wisdem of the celumn headed ''Her Point of View." The editor of the weman's page and auther of "Her Point of View" is Mrs. Margaret Welch, widew of the New York Snn's famous humorist, Philip Welch. When her husband died, Mrs. Welch bravely pulled herself together and undertook the task of supporting herself and two children. Somo friends raised a sum of money for the family as a testimonial of their admiration for the humorist. Mrs. Welch put this aside to educate her children and start them in the world. Thus, with the care of providing bread for these dear little ones always on her, she has gene forward and the box effice, "that I am not as others woman physician, who advises members | werked and made a name and place for | are. "-Detroit Tribune. without further charge. Besides these herself in journalism.

Enough Trouble to Begin On.

The light and joy of a pleasant Detroit home is a 5-year-old boy of bright face and happy temperament. A day or so ago a gentleman visiting the family engaged the little tot in conversation, and one of the mimerous questions lie was called upon to answer was:

"Are you married?" "Yes," replied the gentleman, and he added playfully, "Are you?" "No," came the quick response, "but

I've been vaccinated."-Detroit Free

#### AN ALPINE YARN.

It was some four and twenty years ngo, I aur sorry to say, when as a young man I found myself in the Rhone valley, in Switzerland. I wasn't at all a practienl sort of youth, like you fellows, and I'm bound to say I was just tdling about there, staring at mountains, finding out the places famous in history, sketching knock and that harrible tip over the and all the rest of it, but I enjoyed myself uncommonly in my own way, and so one evening I got to Brieg, which you ms, ~ may not know is an old town on the swiss side of the celebrated Simplon pass leading into Italy,

I was a good deal too late to clash with many British tourists. The fact is it was December, and I had the hotel to myself. But the winter that year was altogether abnormally late, and there was, they told me, hardly any snow on the pass up to Berisal. If I chose to walk into Italy the next day, I might sasily do it, spending one night at the hospice on the way.

The hotel proprietor who told me this alded with a wink:

But you must be careful, sare. There found several dead bodies in the Saltine the last year, and they was all with empty pockets."

I laughed at this. I flattered myseif that my revolver and I could account for any moderate dangers of that kind. As for concerted brigandage, the time for that had long gone by.

The next morning was levely, with a hide either the snow or the high Alps as one does feel in youth on the eve of a spiendid excursion.

I had got to the last little cluster of dark cofored houses before the pines on the slope on the north side of the Ganten when a good looking Italian accosted me. I was in the humor to be seclable and readily accepted his offer to rest a moment or two in his chalet, which was close by.

It was here that I saw the girl who is my wife, though she is not a girl now, as you may suppose. I lost my heart to her as one does now and then to a girl. I'm not going to describe her us she then seemed to me-you feilows can hardly expect it-but I very soon saw that she folt an interest in me, and the realization quickened my pulse, I

Weli, I rested longer than I intended and was mighty vexed to have to stir at

"If I might hope to call again when I return," I said as I held the giri's hand for a moment in mine.

Her face satisfied me she was interested in me, and yet when her father, with a cheerful set of griu, said that he meant to accompany me for a mile or two, "to show you the old road, signor, which is much shorter," she made objections which struck me at the time as very odd. "Made objections." I say, but it was a ileal more than that. She began to cry, in fact, so that I seconded her and tried to persuade her father that he had better stay where he

The man insisted, however-politely enough, I must admit-and so we started, he looking rather wild, as if he dldn't appreciate that domestic scene, and I feeling as if I'd willingly give up the Simplon and everything elso to spend a day in that quiet chalet, with that pretty giri's gentie, kindiy faco beaming upon me. There was a sadness about the girl that won me as much as mything elso.

But we fiadn't been gone more than half an hour from the chaict when I understood what it aif meant.

By this time we were about 11,000 feet above the Saitined stream, which brawis from the high Aips at the bottam of this fearful ravine. We were on the old road, just a mnie track scratched in the side of the perpendienfar rocks only four or tive feet wide and with this alarming precipice to the

and it was I who took the lead.

I was still thinking more of the pretty giri than the scenery when I felt a crnei blow on the back of my head. It faid me down in an instant, more than half unconscions. I was robbed-watch, purse, passport and all except the revoiver, which I carried on the hip. Then the wretch tilted me over the rock, and it seemed to mo I was dend.

But of course I wasn't dead, though it was well on in the afternoon before I could stir to realize it. I had caught in one of those gnarled old fir trees which grow out from the Simplen rocks almost at right angles to them. My God, what a position it it was, to be sure! A fearful depth of sharp mountain side below me and the Glisshorn's precipice across the ravine, with the roaring stream in the gully.

Weil, gentlemen, I got out of that hole-I don't much care to think how -and fate in the night I erawled back to Brieg, looking, us they told me, like n dead man. But I said nothing about my adventure, for though I owed Caterina's father something considerable in the matter of vengeance I was loath to do anything to cause pain to Caterina herself. You see, I knew now what her entrenties had meant, and I foved her ail the more for her tears on my be-

The uext day, bruised and aching as I was, I returned to Sion. I had a plan iu my head.

I sta!d at Sion a fortnight untl! I was · fairly fit again. Then I returned to. Brieg disgaised out of ail relation to the other feilow who was supposed to be

rotting in the iev cleft through which

the Salthio rans to the Rhone. Another tating. I had got from Geneva a pair of excellent handcuffs. You can guess for whom.

This time I spent the night in a different hutel. I did not care to run the slight risk of being detected in my disguise. It might have been awkward, And so the following morning I set

out ugain as I had set out before. Now, gentlemen, you will not think

me a very soft sort of com, I hope, when I say the nearer I get to the little village with the small white church in the miast-the village to which Caterina's father's chulet belonged-the less resentment ! felt for the old man's pass murderous attempt upon my life. I car ried a sear or two as the result of that elift, but I was more affected by the thought of seeing Caterina again. Ana sure enough, I soon saw her.

The man was toying with an az spon a pine log in front of the house. I saw his teeth gleam at me while I was yet rome little distance away. You ree, I hal made myseif into a middle aged person of great respectability and apparent weulth, a German botanist or geologist or something of that kind. I t attered myself I should prove an irresistible bait.

"My friend," I inquired of him before he had the chance to speak, "is there not a short cut to Berisai from

"Yes, sir," he replied promptly. "I is had characters about. There has been shall take the liberty of showing it to

> I had changed my voice as well as my appearance. It seemed to me unlikely in the extreme that Caterlua could recognize me, and yet ere the man could get his coat and take his stick, a villalnous sort of club, who should look ont but Caterina herself.

I tell you, gentlemen, I was near givbive sky and a thin mist which did not ing up my little plan of revenge at sight of her or at least of comprolising it er the heavens above them. I strade out then and there. She was the same Caof Brieg toward the mountains, feeling terma, with a difference-there was more sadness in her than before. And when she cried, "Father, ilo not go," this time also it exacted all my self control to help me to dissemble.

We began our climb. When wo reached the old umlo track, I decilned to go first. We had a fittie wrestle in politeness, as it appeared, but I won tho

My gentieman stopped nearly at the very spot which had seen my misadventure and turned upon me, with a pica of fatigue. It was just here, too, that I designed giving him his punishment.

"Yes, we will rest," I said. And then in my natural voice, as I covered him with a revolver and held out with the other hand the bracelets I had bought for the purpose, I bade him slip his wrists into the things.

I could have enjuyed the rascal's discomforture if he had been any one's father except Caterina's. As it was, I pointed by President llayes for another he had got over the first shock at the sight of me (and it was a genuine shock to him), he was clearly bent on trying to get me over the precipice a second

But I dld not allow him the smailest opening on that score. I had him handcuffed and then set him to return before me to the chaiet. His cloak gave him cover for his shame in case we should meet any other travelers.

There was some tine drama in the scene that ensued when I had thus brought him back to his domestic hearth. 'Look, girl!' he cried to his daughter, raising his mannefed hands when

we were inside the house. As for me, I could only add, "It is

I," and I blushed as I spoke. Caterina seemed for a moment tinnsderstruck. I might, if I had not been in fove, have expected a joint attack, in which I should assuredly have been unnihilated. But I had not misread her interest in me. There was more joy in her tace eventually at the realization that I fived than there was sorrow at her father's predicament.

Watching her, 1 forgot her father and cared nothing for the vengeance I had craved. I was, as I had believed, passionately in love.

Well, gentlemen, it only remains for me to teil you that I married this villain's daughter, and that I have never regretted it. If criminal instlucts are hereditary, as our wise men nowadays teli us they are, there must be excep-One of us had to precede the other, thous. My wife has been a success, and my children do not promiso to be extraordinarily bad in character.

. . . . The young fisteners to this story seemed surprised at its issue.

"But, sir," said one of them, "wint in goodness did you do with your father-in-law?"

"I arranged for his emigration to "Not North America, I do hope,"

"Oh, dear, no-Sonth."-Milliou.

#### WILL SUCCEED SPRINGER.

Congressman's Place.

Maj. James A. Connolly, who succeeds William A. Springer as representative of the Seventh Illinois district in the national congress, is a lawyer by profession and occupies a front rank among the members of the bar in Sangamon county. He is n antive of Newark, N. J., and will be flfty-three years old in March next. At the age of seven years he went with his parents to Marion county, O., and while a boy was clerk in a general store at Chesterville and afterward bookkeeper. He graduated from the Chesterville high school and also the Chesterville academy, studied law and

JAMES A. CONNOLLY, ILLINOIS.

was admitted to the bar at Mount Gilead, O., in 1860.

In December, 1860, he settled at Charleston, Ill., as a lawyer, and in June, 1862, he raised a company in Coles county, of which he was chosen caption after he and his men were all sworn into the service. Upon the organization of his regiment, the One Hundred and Twenty-third Illinois, he was elected major and served in the field until the close of the war. He was brevetted lieutenant colonel for conspicuous gallantry on the field of battle at Bentonville, N. C., and took part in the battles of l'erryville, lioover's Gap, Chlekmaanga, Misslon Ridge and Atlanta and In Sherman's march to the sea.

On returning from the service Muj Connolly resumed the practice of his profession at Charleston and soon took high ranh as a lawyer. He was afterward at different times chosen as supervlsor of Charleston township, although it was strongly democratic, as member of the Churleston Union school school board, as mayor of the city of Charleston, and in 1872 and 1874 was elected to the Illinois house of representatives from the district composed of the countles of Coles, Douglas and Moultrle.

In March, 1876, Maj. Connolly was appointed United States attorney for the southern district of Illinois by President Grant, and at the close of that term of four years was reapterm, and by President Arthur for still another term, but in June, 1885, he was removed from office by President Cleveland. During his tenure of office he conducted many notable cases, and It is but fair to say he did it with distinguished ability and success. He had the reputation of being one of the ablest district attorneys in the country.

In 1868 Maj. Connolly entered into partnership with T. C. Mather for the practice of law in Springfield, and in the fall of that year removed from Charleston to that city, where he has since resided and practiced. In 1886 he was the republican nominee for congress against Mr. Springer in the old district, composed of the counties of Sangamon, Morgan, Christian, Menard, Mason and Tazewell. In 1884 Springer's innfority had been about 3,900, but in 1886 Maj. Connolly reduced this to less than 1,000. The district now includes the countles of Sangamon, Christian, Maeon, Menard and Logan, la which Cleveland's majority ln 1892 was 3,003. Maj. Councily enried it in the late election by a plurality of over 2,000, He is a strong and logical speaker and will be fully able to "hold his own" in debate on the floor of the national house of representatives.

#### ELECTED FROM TEXAS.

The Lone Star State Will Send One Repoblican to Congress.

Judge George II. Noonan, of San Antonio, Tex., who has been elected to congress from the Twelfth eongressional district of Texas, is the first re-

OEORGE II. NOONAN, TEXAS.

publican representative elected to congress from the Lone Star state since the days of reconstruction. Judge Noonan made the race for congress us a straight republican on a protection ing there was more feasting, and the platform. He was elected over his opponent, Hon. A. W. Houston, democrat, by 1,500 plurality, overcoming a plurality of 6,600 that was given llon. Thomas Paschal, democrat, two years ago. Judge Noonan is a notable man in many respects. He was born in the town of Caldwell, N. J., in the year 1828, and came to Texas in 1851, and settled at Custroville, a town west of San Antonio. He was a unionist during the war, and had many exciting experiences with his confederate neighbors. He has served continuously for thirty years as district judge, and is regarded as an able jurist. He is a brother of ex-Mayor Noouan, toSt. Louis.

#### Maj. Connoily to Take the Famous Bilinois OLD TIME CHRISTMAS

HOW DINNER WAS SERVED IN THE FOURTEENTH CENTURY.

Boar's Head, With Hosemary, Brought In to the Musle of Trumpels-Boasled Peacock the Pride of the Pensi-Barbarous Appethes of Brave Knights and Fair Ladies

It was n gay seene-that great hall, where the yule log was blazing in the immense fireplace, big enough for two whole oxen to be reasted therein; the high rafters festooned with branches of holly, holme, faurel and ivy; the wide portal crowned with inlatletoe, and the table, which was literally a board of boards, ali of oak and polished till they shone, stretching the whole length of the room, 160 feet.

Twelve o'clock has just struck, and the household is mustering in the magnificent hail, it being "covering time," or the hour for preparing the tables for dinner. The steward in his gown, a most Important looking personage, is standing at the uppermost part of the half, surrounded by most of the chief officers. The table is neatly covered with a purple veivet cioth, saltcellars and trenchers, under the supervision of the usher of the hail. .

The yeomen of the ewery and pantry, conducted by the yeoman usher, then enter the dming chamber. As they pass through the door they bow reverentially, and they do the same upou approaching the table. They then lay down at the side of each trencher a knife "hafted with silver" and a speon. No forks are laid, for these convenient articles have not yet been invented. Next in succession comes the yeoman of the cellar, who dresses the sideboard with wines, flagons, drinking cups and such vessels us are consigned to his care. The yeoman of the butlery follows him, and brings up beer and ale, and urranges the pewter pots, jugs, and so forth, on the sideboard.

The dinner time has now fully arrived, and the steward's command is taken by a gentleman usher, who knocks respectfully at the door of the state chamber and summous King Richard and his nobles and guests to dinner. In they come, dressed in their court attire, the king and his lords in magnitheent iong green colored velvet tunics, silken hosiery and red leather boots, with very iong points; the pretty girl queen, Anne of Bohemia, and her ladies in particolored kirtles of white and blue, cotehardies edged with fur, and their hair done up in a gold fret or cone of network.

When the guests were assembled and seated, the king and queen occupying a dais above the others, the trumpets sounded, and a band of musicians entered the hall. The server followed them, bearing upon a huge golden platter a boar's head dressed with sweet rosemary and rose leaves.

The boar's head, with a great golden pippin placed between its tusks, is then placed upon the table, where it is served with mustard sauce, and the Christmas ditner begins. No napkins or forks are used, and brave knights and noble ladies wipe their greasy hands upon the tablecloth and throw the discarded boues and pickings upon the floor.

Besides the famous boar's head, the first course consists of roasted beef joints, pigs roasted, vemson with frumenty (a curious concoction of boiled wheat and eggs seasoned with sugar and spices), broth of pork and onions, custard and a subtlety, the latter being au ornamental dish representing a ship, a castie or a human being, just as the

taste of the cook dictated. The second course is introduced by the bringing in of a peacock with ali its gay plumage on and its whole body covered with leaf of gold. A singular dish, was it not? Like the subtlety, it must be intended merely for an orna mental dish. Not at all. It was a real dish to ent. The peacock was stuffed with all manner of spices and sweet herbs, thoroughly roasted, basted with yoik of egg, served with pienty of gravy, and was considered the greatest delicacy of the Christmas feast.

It was something of a task, as you may imagine, to prepare this bird of Juno for the table. The skin was carefully removed before it was baked, and then, when it was taken from the oven and cooled, the skin was sewed on again dexteronsly, not so much as a featile: being ruffled. It was carried to the tabie on a silver basiu, with a lighted piece of cotton, which had been saturated in alcohol, placed in its beak. No part of the dinner was so eagerly anticipated as this, and nil manner of vows were pledged over the beautiful bird. The chronicles of the middle ages record many of these vows,

Jeffies of meat or fish, all manner of fowls, roasted or boiled capous, haus, pies of carp, tengues, mutten pies and plnm puddings followed in due order, and these were displaced by a dish of jelly, fruits and another subtlety. There were but few vegetables to accompany the various dishes of meat and fowi.

After the solid food was disposed of, wine and ale were drank in profuse quantities. One wonders how they could eat and drink so much. Feople had barbarous appetites in those days, and s lady of rank would swallow two or three tankards of aic at a single meal.

This dinner on that long ago Christmas day insted two hours. In the evenhistorian amazes us by the vast enumeration of swine, oxen, sheep, pigs, hares, kids and fowls slaughtered and the tens of ale and wine drank. Eugland was merry England then, and rude ficense and boisterous cheer characterized the Ynletide festival. Yet doubtless we who truly. Certainly, we have more refinement than those fair fadies and galfant knights, who greased their fingers and soiled the tablecloth eating the boar's head and the stuffed peacock and the framenty at that Christmas dinner of the fourteenth century. - Christian Ad-

#### W. P. WALTON.

Some men had rather be written down as asses than not to be mentioned at all. Carolina Legislature Tuesday. President season. Cleveland is in the State and simple courtesy, not to mention greater consid- ing to write a book on his experiences would not accept a railroad pass. erations, demanded that an invitation in Congress. extending him the privileges of the floor, be made. Only one man was fool enough ed the gold dollar of the United States to oppose the motion and the speaker as user liel. very promptly sat down on him by igmoring bls remarks and declaring the lalest is the Citizens' at Slater with lia motion unanimously agreed to. It is not bilities of \$5550,000. likely that Mr. Cleveland will accept the invitation, but he will accept the one tempted suicide because he lost his pocktendered him from Georgetown, S. U., where a reception will be given him. No president of the United States has visited the place since Washington honored it 102 years ago and the present occasion is to be made a memorable one.

CORONER's juries are given to returning singular verdicts, but the one at New Orleans, which investigated the killing of prize fighter Bowen, who was knocked silly by Levinge, takes the cake in that regard. It finds that Bowen's death was not caused by the blow, but by the fall on the unpadded floor, and lays all the blame on the club for its fallure to pad it. While it was at it, the jury might have also censured the dead man for falling on the floor, and held him personally responsible for his own death, making it a case of felo de se pure and simple.

The superior court is defunct. The new constitution settled its hash and Wednesday its shutters were put up never to he taken down again. Two courts of appeal were a little too much even for Kentucky litigants and everybody will he glad that it is no more. With the New Year the court of appeals will be increased to seven judges and if they can't catch up and keep up with the docket, especially with such a man as Guffy to expound the law, they ought to throw up the job and give some other set a chance

#### LITTLE KNICKNACKS.

Dainty Gifts Appropriate for the Holiday Season.

Although They Can Be Made at Trifling Expense, They Represent Much More to Your Friends Than Things Bought in a Store.

As the holidays approach we are all interested in pretty little gifts approprinte for tius season. It is wise, too, to begin early, for it takes a good deal of time if we make our little gifts. A token made by the hands of one we love will be more appreciated than a much handsomer one if bought.

The ilinstration, No. 1, shows a doily in the new honiton braid. The materials required are one square of linen 7x7, one skein of flio siik, two skeins of

etching silk and two sizes of honlton

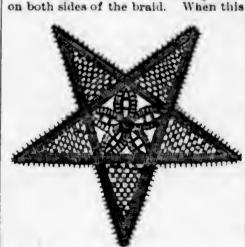

Baste the braid on the linen as shown in the pattern. Now you are ready to begin the work.

Buttonhole the outer edge in scallops with the etching silk, taking care to only confine the outer thread of the onia pulchra, the latter being the honiton.

The inner edge of the honiton is buttonholed in long and short stitches with with the light colors of the box. This filo siik. The flower and leaves are buttonholed in filo with an even stitch, which gives the effect of a silk edge, the stems are in outline stitch.

When the work is finished earefully ent away the linen from under the honitons, taking great care not to cut the lace threads, and you will have a charming lace flower.

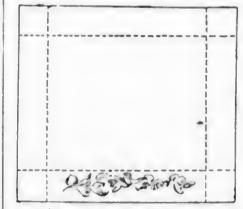

The second design gives a lace star, which will be pretty in the corner of a table spread. The linen can be either hemstitched or fringed and the star made in any size to suit the fancy. Braid one-half of an inch wide, I should fancy, would be suitable for a cloth thirty-slx inches square. Baste on the plain point lace braid to form a fivepointed star, the honitons ln the middle, as illustrated. Buttonhole with a close, long and short stitch in filo sllk

is finished, fili in the paints with lace stitch, that shown in the design is the Venetian stitch, and each stitch is twisted twice. Remove the linen from between the honitons and beneath the lace itself, also from under the lace stitch in the points, and you have a lace star.

The design can be elaborated upon by a circle of honitons outside of the star or a line of the honitons running across the corners as far from the star as the star is from the hem.

Another pretty table cover is shown in design 3, made of bine denim; it is picced up in one of the designs our grandmothers used for their quiits. The center is a dark bine, also the corner blocks, but the sides are the reverse side of the denim. Now sketch in a design on these side pieces and block iu the shadows with a wash of blue

paint, thinned with turpentine, and ontilne it with white rope floss-or, instead of outlining, work with iong and short stitch. The corner is very effective.-Jesse Porter Wood, in Providence Journal.

How to Keep Sliver Bright. Sliverware grows dark and tarnishes in a very short time when exposed to the nir, and even when put away in a dark place. This is especially the case where coai is used in the house, as the suiphur in the coal, liberated by the heat, is sure to stain nil the silverware within reach. This tarnishing can be prevented by painting the sllverware with a soft brush, dipped in alcohol, in which some coliodon has been dissolved. The liquid dries immediately and forms a thin, transparent and absolutely invisible coating upon the silver, which completely protects it from the atmosphere. It can be removed at any time by dipping the article in hot

Something Long Desired.

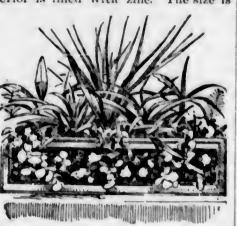

Women have been waiting for something which would hold their hats on in lieu of the spiking pin. This seems to have arrived in a little English invention, which is an ingenious arrangement of two curved pins that, sewed into the back of the hat, grip the hair in a way that defies any wind to loosen

#### TASTY WINDOW BOX.

An Excellent Way of Adorning the Living Room of a Home.

One of the most satisfactory methods of adorning the inside of our houses is by the use of suitable plants, and this is an especially suitable season to remind our lady readers of that, when the winter season is not far off. The window offers a convenient spot for a box with choice plants, and will greatly assist the appearance of the room.

The beautiful box here shown is known as the "Minton tile window box," and is made of Minton tiles, decorated in yellow, blue and white, under heavy glaze; substantial wooden mountings, natural dark finish; the interior is fined with zine. The size is

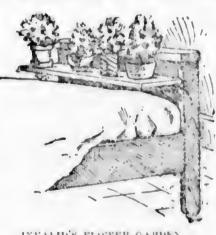

A HANDSOME WINDOW INX.

thirty-three inches long by nine inches wide and seven inches deep. The photograph was taken with plants in the box, and that helps to display its use. They are: One Dracena indivisa, two Dracena terminalis, two Athereium vittatum var., two Cocos Weddelina, two Asparagus tenuissimus, tive Pellipiant drooping down in front, and Is extremely rich looking in contrast collection of plants, as is easily seen, makes an attractive box, and they are selected to withstand the temperature and peculiar atmospheric conditions of the ordinary living room, and would cost about \$4.00. For a fancy box, such as the Minton tile, we would not arivise very common or mean-looking plants, they would be out of place; but it is not necessary that one should be without a window box if he cannot afford or does not care to invest so much money in one as this would cost-the price is about \$3.00 With a saw, a hammer, a chisel, a few nails and immber, a serviceable box can easily be unde. Get one-inch planed pine boards, free from knots, and put them together so as to make a lox of the same size as the one described; or any size in length and width to suit your window, and paint it any desired color. Bore six half-inch augur holes in the bottom at equal distances and the box is ready for the plants. If it is desired to have it a little more fancy in style, procure half-inen black walnut trimmings and tack them at top, bottom and ends, so as to make it look like a panel. A pleudid decoration is officioth of a tile or other pattern, cut to size and fastened on with the black walaut trimmings. A few gernniums, heliotropes, sweet ailyssum, begonias and tropocolums to droop over the edge will give a pretty effect. Such plants will grow easily, and can be procured at very little cost. A dozen plants should be enough, and any florist can supply of the box. The illustration is from a photograph kindly supplied by Messrs. P. Henderson & Co. - American Garden-

#### AN INVALID'S GARDEN.

A Beautiful Way of Lightening the Lot of Our Sick Friends.

The old notion that growing plants In one's living and sleeping rooms were not conductive to good health seems to have exploded with so many other pet theories of "ye olden time." if the home holds some dear invaild whose weeks and months must be spent the prince's seventieth birth key, on wearily in bed, let us hope that some of the freshness and brightness has ercpt into her room. Uniess one has had the misfortune to lle in her piace

INVALID'S FLOWER GARDEN.

and suffer her weariness and pain, perhaps one can hardly realize the comfort and relief she will gain from the few pots of flowers beside her or around her, but let us try the experiment, at all events. The illustration given here suggests a novel and bean- est congratulations. tlfui way to give our invalid a "bright spot" in her long days of monotony and suffering. And it is so simple n way to do such a big missionary work! A broad shelf, polished and beveled, is secured to the inner side of the bed's walked quietly home, where he found foot-board and heid firm and strong by a rather numerous and distinguished pretty iron brackets at either end. Upon it are set the very prettiest, thrift- them and joined in the conversation. iest plants, in the duintiest of pots and bowls, that the home greenhouse affords. From time to time they may be changed for others whose blossoms are just in their glory. The little shelf may thus be always full of the best and brightest. If desired, there may be two brackets for holdlug a single piant, on either side of the head-board. within easy reach of the invalid, who may take comfort in trimming off the dried leaves and earessing and petting them, a process that seems to find favor with plants as well as "other obtain, and furnished him with new folks."--Webb Donnell, in American menterials to meet the necessities the Agriculturist.

#### BISMARCK'S HOME LIFE.

Incidents Recalled by the Death of His Faithful Wife.

How the Impetuous Jonker Won the Pair Putikammer Malilen - A Patherle Hirthday Incident-A Memory of

daughter of Jacob von l'uttkapuner and Lady Luitgarde von Giasempp, at Ricinfeid. She was betrothed to Bismnrek before he appeared upon the political stage of the world. The marof them cannot fail to be interesting at this time.

country, lu company of the lilanckenconnected with his own. This family Puttkammer, with whom Blsmarck had failen in love a long time previou ly. But he had never made her acquainted with his antecedents in this direction. enburg with Fraulein von Thadden-Triglaff, whose bridemnid was Francein famous voyage in ilarz, Bismarck, who has always favored energetic measures, wrote direct to the young lady's parents, with whom he was not aequainted, and demanded the hand of their fair daughter in marringe. The good peopie were naturally very much surprised at a direct attack like this; they were very simple folk, leading a very quiet life, and they were rather frightened at the reputation for high living which the candidate for their dangiter's hand enjoyed at that time. As, however, | ment, the young woman herseif intimuted in discreet terms that she did not look upon the young man with an unfavorable eye, and as there was no doubt that Bismarck's parents ind a reputation as good as their sons, Herr von Puttkammer decided not to hurry mutters, either in one direction or the other. Consequently, he wrote to young Bismarck inviting him to come and see

the young lady stood with eyes bent them. If you have no soil, it would be upon the ground, when Bismarck, on better to get that also from the man alighting, threw his arms around his who furnishes the plants. To give the sweetheart's neck and embraced her collection a rich appearance it would vigorously before anybody had time to be well to have one paim for the center | tell him that his conduct was hardly proper and correct. The result was, however, what the young people both desired-an immediate betrothal.

By his marriage with Fraulcin l'utt-Count William, who is godson to the late Emperor William, and Countess Marie, who, since 1878, has been the wife of Count von Runtzan.

While this was going on Hismarck gradually edged nearer his wife, and when the toast was nt an end he kissed her affectionately on both checks. All this had passed so rapidly and at a time when it was least expected that the company was nonplused for a moment; but they recovered themselves and offered the chancellor their warm-

Princess Blamarek, who died November 27 at Varzin, was Johanna, only rlage took place in 1817, under sech strange circumstances that a narration In the course of the summer of 1846

Bismarek took a journey in the Harz burg fancily, which was very intimately took with them Franceln Johanna von The COURIER-JOURNAL CO. He had seen her for the first time at the wedding of his friend von Blanckl'uttkammer. On his return from this

Everyone did his best at Bheinfeld to give the visitor n sultable reception; Frauieln von Puttkammer's parents assumed an air of grave solemnity, and

kammer Prince Bismarek had three Count William, who is godson to the The Bismarck home life has always

been a very happy and contented one. On the occasion of the celebration of April 1, 1885, he gave a great dinner at his residence. After dinner un endless string of toasts followed each other, but the best conceived was certainly tint of a Wurtemberg guest, who, after a wandering speech, turned to Fran von Bismarek and overwhelmed her with compliments. The lady was much confused, and cast suppliant glances at her imsbaml in the hope that he would reiense her from her critical situation; but he did not stir, and contented himseif with giving the orator frequent approving nods. The sturdy Wartemberger told her, mmong other things, that in her the German people honored the princess neach less than the modest and devoted wife, the support and consolation of her husband and the model German wife.

When on Unter den Linden in Berlin, on May 6, 1866, a fanatic named Blind fired at Prince Bismarck, the latter personally captured his assailant. turned him over to the police and company. He took his seat among without making the slightest nlinsion to what had happened. It was only on going to the dining room that he took his wife aside and whispered in her ear: "My dear, I have been fired upon,

but I am not hurt." Princess Bismarcic was nine years younger than her husband. She proved a model wife, domestic and wise, of whom he was both proud and fond. Their marriage produced in Bismarck that freshness of heart and mind he had so long and so ardently desired to fime required from his patriotism.

Any one who has children will rejoice with L. II. Mulfotd, of Plalavile, N. J. Ilis little boy, five years of age, war aick with croup. For two cays and nights he tried various remedies recommended by friends and neighbors. He says: "It ought sure I thought aure I would lose him I had seen Chamberlain's Cough Remedy advertised and thought I would try It as a last hope and am happy to say that alter two doses he slept until morning I gave it to him next day and a cure was effected. I keep this remedy in the house now and as soon as any of my children show aigus of croup I give it to them and that is the last of it."

Fancy Waisto a Universal Fashion-Quainl Styles in thairdressing-it. Mourning fiver a Sucial Cup of Tea-Heavy Eug Itah Ctape - A Statue of Wne.

(Copyright, 1891, 17 American Press Associa-

110h.] There has never been such a universal fashion as the fancy waist: are an i none that has lasted for two seasons without tiring the changeable fancy of womankind Waists of whatever kind made be fore have been looked upon more as rarity. I saw two very elegant importmakeshifts than real articles of fashion | ed gowns this afternoon intended for but still they have them A stone colorloosely made was worn by a stately grandmother recently, with a skirt of black grosgrain Another waist for an elderiz lady had a full surplice front made of a dark heliotrope taffeta shad- bottom of the dress all around and othed with emerald green. The sleaves ers at the edge of the full elbow sleeves were very large and full, and the neckband and belt were draped in the most. approved fashion. This, at the time I saw it, was worn with a very dark prune wood skirt.

These waists are made for everyday home use, and also for the street and visiting, and one also comes across them

NEW FANCY WAISTS.

occasionally in silk or satin brocade of bored with might and main to show our expensive quality. In this latter case sex, young and old, how they can take they are handsomely trimmed with care of themselves and not be dependreal lace and fine beading, and they are eut on any human being. In my judgintended for wearing with plain but ment, no better, nobler book for girls handsome skirts. The more ornate the and women could have appeared just at waist the plainer the skirt. Young la- this time. The writer says: "Learning dies now often have five or six of these to stand alone is the great art this book fancy waists, which they wear with endeavors to teach, giving both spiritonly one skirt, and by the use of float- ual and practical help. In this art woming ribbons to match they appear to have en still need assistance." The keynote a great variety of gowns.

and most diaphanous of fabrics, such as labor and patience the writer has traced colored tulle, silk muslin and Italian out hundreds of occupations in which erape; also crepe lisse. These are draped women have achieved success and are in the most lavish way. Some are gauf- now making comfortable livings, from fered all over the corsage liuing. There the Tennessee woman coal mino operawas a very dainty one of pearl white tor to the San Francisco woman baker china crape, the waist part gathered at who rented a dingy little shop, made it the neck and waist as full as it would immaculately clean and attractive lookhold, the material extending about ing and then cleared \$1,800 in four three inches below the belt, where it months by selling her own homemade fulled up in a ruffle. The belt was bread, cake and rolls. I knew a long plain and fastened on the right side time ago that women can do anything under a chou of the crape. On the waist in the business world that they set their and sleeves was laid the heavy pattern heads to, and now I am surer of it than of some handsome black chantilly, ever. The only point is to set your from which the intervening mesh had head firmly to it and never give up. been clipped. The collar was a regular Woman can never be anybody or anychuker, with a succession of small ro- thing till she is thancially perfectly insettes of the crape and the largest flow-dependent, just as independent as men er in the lace set between. This worn are, I'er this she must strive with all over any plain skirt of suitable material her might. Financial dependence is -that is to say, all or partly silken slavery, and slavery of the most humilfabrio-would be dressy enough for any lating sort. We learn in this volume occasion except a grand ball. There was that a woman grocer in a western state another waist which was very novel carries on a grocery business worth \$80, and wholly artistic. The entire waist 1000 a year. An American girl has built lining was covered with alternate a railread to some sult mines she owns puttings of cardinal and black tuile, in Mexico and is colonizing her lands The sleeves were made of black faille. with English families. We find here The waist was pointed and finished with that fruit culture and poultry rearing a pointed sash outlined with cardinal are among the safest and most remusatin ribbon ending in a fancy bow nerative occupations for girls and womwith short ends at the left side. There en. Whatever you do, try something that were small bows of the same perched on is not already overdone. the shoulders and a draped collar of curdinal velvet. This is intended to be worn with black skirts and for quite festive occasions.

For home, for teas and general afternoon wear there was a very girlish blouse waist shown. It was of baby blue

MOURNING AND HOME TOILET.

surah, hanging down in front in fuil gathers in something of a blouse pattern. Across the chest there was a square yoke let in of dark blue silk laid and doubtless the young commonwealth in fine accordion plaits and bordered with folds of the pale blue silk, and across the bust was a fold ending under the fancy bows made of the silk. The coliar was of the light bine, with bows set in the back. The sleeves were puffed, with chatchine fore parts. It could not be more artistic. It was worn with a skirt of favender mixture, with rows of tailor stitching holding down three plaits on each side and one narrow one in front which reached to the bottom of

to the sales described to the sales

BEYOND FINDING OUT the skirt, while the rest only reached to the knees.

These are but a few of many, but may serve to give a general idea of their prevalence and usefulness. Many are made in black china silk and trimmed with white face and insertion and the inevitable touch of color in the ribbon trimming. Some are made quite like basques and others again are belted or with polka rutlles, but they are ali waists, and as such should be handed down to posterity.

With the coming in of the fancy waist, tea gowns are not produced to such an extent as they have been, but when one is evolved it is fine enough to make amends for their comparative They are not looked upon so now, not such uses. One was of old roso armure are they relegated to the young Quite silk laid in deep folds under the arm old ladies now have their massy, blousy and to a square yeke in the center of looking waists of darker silk, it is sure, the back. The front extended up to the top of the shoulders and ever, forming ed surah waist puffed and draped and the yoke by the deep flat pialts, with passementerio in the center. On the shonlders were two immense rush green velvet bretelles bound with light brown for. There was a similar bindling at the and collar.

The effort to reduce the amount of crape on mourning has failed most signally, and now it is difficult to decide whether a gown is of stuff trimmed with crape, or crape trimmed with whatever other material is used with it. Today I happened to be in a place where one of the leaders in fashion in New York was She was completely enveloped in the heaviest linglish crape, her veil falling to her feet both front and back. She looked like a moving statue of woe. It weighed her down and depressed every beholder, but it is the fashion to wear HENRIETTE ROUSSEAU.

WOMAN'S WORLD IN PARAGRAPHS.

One of the Best Books Ever Written For Women.

A book comes to me from the publish-

ers. I do not know who wrote it, for the author is too modest to give her name, in which respect she made a mistake. I wish I knew who brought together all the cheering, inspiring words ami facts found in this book. It is callul "Women In the Business World-Hints and Helps to Prosperity by One of Them." The unknown author evidently believes as I do-that financial independence is the key to the whole woman question, and she has here laof this grand book throughout is the Some of the waists for very dressy line from W. J. Henley's poem, "I am vening requirements are of the lightest 'the master of my fate." With immense

> Samh Grand's idea that irritable old men abould learn to knit is not half a bad onc.

Unclean fingers and black finger nails are sickening. This morning I saw the combination on a woman who wore a sealskin cape.

The author of "Women In Business" wants to know why girls who paint ou plaques and china and waste their time do not learn to letter artistic signboards, to decorate carts, omnibuses, railway cars and furniture. Why indeed?

When the woman's vote does not go to suit a man, he declares that it was a mistake to enfranchise women, after all.

Louisiana has 100 women sugar planters.

Bozeman, Mon., is a five place. In a late number of The Avant Courier of that town I find a notice of the meeting of the Physical Culture and Correct Dress elub. Bozeman, too, has a society for premeting the adeption of a state floral emblem for Mentana. Mrs. M. L. Alderson is chairman of the Montana Floral Emblem society. The legislature is to be memorialized on the subject, wili soon have a state flower.

The author of "Women In the Business World" tells us that Miss Charlotte Robinson superintended all the interior decorations and furnishing of the magnificent Cuuard line steamer Cam-

### UNCLE BEN'S LETTER.

Bill Hullet, who lives on a small farm in Lake county, was showing me a number of Indian relies prized by him because they had been in the family so

"What have you in there?" I asked, pointing to a faded blue plash case originally intended, I lancied, for a set of silver teaspoons. Before answering my question Bill opened the box and held it so that I comble look into it, and but for a yellowing envelope it was empty. He took up the envelope, touching it with exceeding care, and handed it to

"What of it?" I asked after reading the name and address-"Mrs. Mary Hullett, Antioch, Lake county, Ills." "You notice," said he, "that it has

never been opened." "Yes," I moswered, "and what is this postmark written with a pen? Why, it is Gettysburg, isn't it?"

"Yes. That's where the fetter was

mailed, addressed to my mother, and, as you see, no one has broken the seal." "Why, that's strange. Tell me about In order to get the history of a relie

felt, a great interest in it. Bill took tho letter and put it away, and after a time tohl me the following bit of family history:

"Yea see, my mother thought more of her brother, my Uncle Ben, than she did of almost unybody in the world. While quite young she married in the east, and she and father, together with my Uncle Ben, came on to this state. I don't recollect much about my father, for he died not long after I was born, but from what I have always understood the marriage was not a happy one. Well, Unclo Ben finished paying for the farm and had the deed much over to mother.

"I merely mention these small details to show how much the brother and the sister were attached to each other. Well, when the war broke out-and I recollect it well, for I was a smart chunk of a boy-Uncle Ben swore that it was his duty to go. My mether was a very patriotic woman, but with the selfishness of a woman's affection she could not see why she should be called upon to give up her only brother. But Uncle Ben declared that every woman should not only be called upon to give up her brother, but her son, her husband, her life, if needs be. He was so devoted to the Union, so strong in his denunciation of all people who were lukewarm, that when the time came he was elected captain of a company, And so off he marched, leaving my mother in the deepest grief. At night she would awake me with her sobs, and many a time when I heard no sound would I put my hand on her pillow to find it wet with her tears. Of course the violence of her grief did not last, for pride and the love of country bade her be brave, but whenever we received news that a battle had been fought she would lock herself in her room and there wait to hear that her brother was dend.

"Thus it went on until his death was mentioned in the dispatches. He was killed at Gettysburg, and two days later there came a letter from him. My mather knew that it had been written just before he went into battle-probably the very last thing he did was to seal itand she declared that the seal must never be broken. I remember that some of the neighbors argued with her that she ought to see what the letter had to say, but she said not, it must forever remain scaled. So she never did open it, and when she came to die she told me to keep it just as she had kept it and to leave it to my favorite child, with the same instructions that she had given me. My mother was of excellent stock, and I have thought that this prompted her sometimes to say that the erest of her descendants might be an unopened letter. She always said this laughingly, but I have noticed that it is in a spir. of fun that we sometimes show o pride. Well, as you see, I have ne

opened the letter, and I never inter. to. I'm going to leave it to my son An

Bill and I went fishing that afternoon, as wo did nearly every Saturday during the summer, and all the time we were casting I was itching to know what was in that letter. Of course I knew that it contained simply a few lines telling his sister that a battle was on, and that he trusted in God and the right. But I wanted to see the lines. I could faney the shape of the sprawling characters, written with a pencil by the light of a candle held by a bayonet stuck into the ground.

"Bill," said I, "you would have found me among the neighbors urging your mother to open that letter."

"But not if you had seen that not to open it was a sentiment with her." "Weil, I don't knew about that.

Probably uot." The next time I went out into the country to fish with Bill I found him in rather a dejected state. The drought had continued so long that he knew that the crops must be a failure, and summer boarders had not come in numbers sufficient to insure an offset for the damage. Bill said he didn't care to fish. "If I were to hang the biggest bass in the lake, it is a question whether I'd have courage enough to pull him out," said he.

Oh, it surely isn't as bad as that!" I argued. ''One good season will make everything all right.

"No," he replied thaking his head. 'In fact, there may not be another sea-

"What do you mean?" "Why, year before last, in order to build the large extension to the little house that we had lived in so long, 1 rather than to worry any longer and tako a few hundred and rent me a shanty in the village. I am a sert of plas-

He was so depressed that I cared not to talk to him, and I took the first train and returned to the city. Several weeks passed. I went not to the country for the reason "tat to me the whole landscape had been saddened. I had become much a tached to Hullett. He had a droll way of speech, a dry laugh, and his mischieveas eye cut so odd a caper now and then that I was drawn to him. But I cared out to see him now that a misfortune had befallen him, for my friendship for him was founded on a humorous sentiment. One day I met a man from Antioch and asked him about Bill, whether or not he had found a purchaser for his farm. "I think he has," the man answered. "I understand that a fellow named fetterage has about closed a deal with him. Sorry for Bill; says that he can get along maybe as a plasterer, but I don't see how he can then the regular plasterers are about all out of work."

A few days after this I was hastening along the street when some one grabbed hold of me. I wheeled about, and there was Bill, pretending to choke me. His evo was bright, cutting its odd capers, and I noticed that he was arrayed in new clothes. "You are hustling along I had to feel, or rather pretend that I hero pretty brash," he said, releasing me, "but I want to w you that I am not to be run over f I am from the country."

I stood there looking at him, wondering what could have happened. "Have you sold your farm?" I usked.

His eye twinkled. "Say," he said, 'I am all right now, and my son Andrew, little rascal, brought it all about. for Indian arrow heads, and what did he do but rip open Uncle Ben's letter and bring it to me. And of course I had to read it; told that he-Unele Ben-had huried \$3,000 in gold in au iron box at the left hand root of the white oak tree facing the outlet of the lake. I jumped up and grabbed a hoe, I tell you. The tree had been cut down years age, but the stump was there all right, and there I dug till I got the money, all the time thinking about mother and her brother, and the next day when that shark came to close the deal with me I said: 'No, care to trade. I thought I was broke, but the truth is an uncle of mine has left me some money.' And, say, the news that a fortune has been left to me has spread about, and you ought to see the leddish en premises. Somerset, Ky. folks bow to me on the road. Oh, I'm all right now, and, say again, you never saw fish bite as they do now! Come out."-Opie Read in New York Commercial Advertiser.

#### Ward Is True to Polt.

While it is probably true that each nation has its own ideal of feminiue beauty, yet I think wo American men are ready to acknowle lge a really haudsome woman wherever wo see her. While in England I was greatly surprised to see so few fine looking women, though Englishmen claim a suporiority in this respect. Possibly I was unfortunate in not happening to meet them, though I kept a keen lookout both on the streets, in the theaters and at other places where fashionable persons assembled. During all the time 1 was abroad I saw very few beautiful women, but since my return I have been

much more fortunate. Americans should congratulate themselves in possessing not only women who are of a superior type of beauty to those in any other part of the world, but also on account of the endless varieties included in this type. There is a sameness in the appearance of English women which soon grows tiresome to the eye. In America, on the other hand, owing to a salutary mixture of the races, there are all styles of feminine beauty, though constituting one general class. Those who attended the horse show must have been impressed with this fact, and it has been conspicuous also at the exhibition of portraits at the National Academy of Design.-Ward McAllister in New York World.

#### What Spoiled the Coffee.

At last we have in infallible rule for coffee, and though it comes from an un known source at is warranted to please the most exacting epicure. It runs as fallows:

Bridget is an execlient cook, but like most women of her profession she is opiniouated and insists upon making all her dishes strictly according to her own recipes. Her mistress gives her full swing not only as to cooking, but as to the purchase of supplies.

The other day her mistress said to

"Bridget, the coffee you are giving to us is very good. What kind is it?" "It's no kind at all, mum," said Bridget. "It's a mixture."

"How do you mix it?" "I make it one-quarter Mocha and one-quarter Java and one-quarter Rio. "But that's only three-quarters. What do you put in for the other quar

"I put in no other quarter at all, mum. That's where so many sphiles the coffee, mum-by putting in a foorth quarter. "-Kansas City Star.

#### An Elevator's Trips.

While I was waiting for a Laclede building elevator to begin its journey upward I surveyed the uniformed con ductor and wendered how far he travewithout "covering any ground" in the course of n day's journey.

"How many trips do you make every day?" I asked.

'About 450." "Have you calculated what distance

that represents?"

"Eighteen miles."-St. Louis Post Dispatch.

had to mortgage the furm. Of course l thought that I would soon pull out, but I haven't. I om get a few hundréd dollars more than the mortgage is for, and I thought that I would let the thing go

terer, and I may pick up a bare living."

#### FREE COINAGE OF SILVER.

The free and unlimited coinage of silver, the product of American mines, at the old ratio of 16 of silver to 1 of gold, is the only solution of and remedy for the disturbed and unsatisfactory condition of trade, manufacture and general business of the country. The surreptitious act of 1873, divorcing silver and gold in our monetary system, was a crime of untold magnitude. It was the rankest kind of class legislation in favor of the wealthy against the producers of wealth, and hostile to the prosperity of the United States. It was an act of treason because done at the instance of a European syndicate and for bribe money, "giving aid and comfort to our country's enemies." To shield the guilty parties, the well authenticated facts, often published, have been

vigorously denied. The Enquirer will continue to expose this unpardonable crime until right and justice are done the people by the full restoration of silver to its old companionship with gold. We need the assistance of the people in disseminating the truth, to which end we invite all in your selection of papers for the coming season to include the Enquirer, that costs only \$1.00 a vear. (Issued twice a week.)

Liberal commissions and cash rewards given to club raisers. Sample copies free. ENQUIRER COMPANY,

### Harper's Weekly

In 1895. HARPER'S WEEKLY is a pictorial history of the times. It presents every important event promptly, accurately, and exhaustively in illustration and descriptive text of the highest order. The manner in which, during 1894, it has treated the Chicago Railway Strikes and the Chino-Japanese War, and the amount of light it was able to throw on Korea the instant attention was directed to that little known country, are examples of its almost boundless resources. Julian R tphithe distinguished writer and correspondent, has been sent to the seal of war and there joined by C. D. Weldon, the will known American arisit, now for many years testident in Japan, who has been engaged to co operate with Mr. Rol, hin sending to IlA ILPER'S WEEKLY (xclusive information and illustration HARPER'S WEEKLY is a pictorial history of

formation and illustration

During 1895 every vital question will be discussed with vigor and without prejudice in the cottorial columns, and also in special articles by the of the men and wemen who are making history, and powerful and caustic political carloons, will continue to be characteristic features. This flusy World, with its keen and kindly comment on the leaser doings of the day, will rem in a regular ce-

#### HOW ZEKE WAS KILLED.

Strange Story from the Grazing District of Montana.

A Ranchman, Losing Heart ou Account of Financial Troubles, Consents to Heing a Pistol Target for One of His Friends.

A strange story of a snielde has reached Cascade, Mont., from the Sun river country. Zeke Tracey, a man of middle age and foreman of the Cross Bar ranch, appears to have given an exense for this yarn, the truth of which ls vouched for by such reliable ranchmen ås Ted Osborne and Jack Flaherty. Tracey, it appears, came to this conntry about ten years ago. He said he was an Indlanian, but there is reason to believe that he came from Fayette county, Pa. At any rate Tracey took up a claim near Birch creek, planted some trees, bullt a comfortable shack and started to raise cattle. He was getting along with profit to himself when of a sudden one night in March a blizzard swept over the country and destroyed nearly all his stock. Tracey took this misfortune philosophically He had saved some money and with the capital he had in bank promptly restocked his range and set about to make another spinrge in the laslness. Just as things were going right light ning struck his shack and burned it. Then a season of drought set in and Birch creek, which up to this time had been considered a live stream, dried up and left the stock without water. Catthe lay ull along the white bed of the creek. And they ail bore the brand of Trueey's Iron. They lay with their tongues shriveled up and their eyes bulging out like door knobs to n drnnken man.

Tracey lost heart and sold his range for a saddle, a bark-enting pony and a pair of new chaps. That was two years ngo. Then he rode down from the north and struck the Sun river country, where he hired himself out as a fore man of the Cross Bar ranch.

Trucey was three years on the Cross Bar ranch. When the range got too short for cattle he was placed in charge of the 10,000 sheep that were turned loose on the stubble. There were months and months when the men at the shacks never saw him. He grew more and more morose and one day, after having rounded up his great drive of sheep, he sat down in the shack and wrote this letter to his friends along

CROSS HAR RANCH, Nov. 23.-1 am sick of the shole thing. There is nothing in living and I am thinking of how I might shilt the luck and tackle a new range as a dead man. If it is not apolling any game will you kindly suggest a trail? Yours. TRACEY.

It takes time for letters to travel in this country. It was n week before he

received an answer. After that the replies came thick and fast. Some of them were found in an aid satchei which was stuffed away in the room where Zeke kept his suddle and ropes. One of them read as follows:

THOREN WILLOW CREEK, ZEKE TRACET-Your letter is at hand and I take my pencil in hand to make a deal. I will have you a chance. You know I am pretty hardy with the roje post. You will plant yourself squarely in from of the gun-say thirty feet. Then I will had!cock the from more away sixty feet and make at a time and then waiting, cronching three swings at the hummer of the gan. If I and snifing, as is the way with rate: from and carry you where you seem to wnut to go, you are to take three cracks at me, von to hold the gun But mind you fum to have three trials at the hammer with the rope them both run, though the eat is not Please answer HEN MYCIG. Shy at other times.

It is evident that Zeke thought well of the proposition, for it uppears that the rat was quite blind and that the he invited Myers to do this worst. The men were friends and it is probable that Myers, having no desire to see Zeke whet his mood with a gun play, suggested this outlandish method in the hope of staying off the herder's saieidal mania until such time as he should recover his mental balance. Myers nppeared at the shack at the appointed time. His horse-hair rope was slung to his saddle. Zeke was really for the experiment. The gun was seenrely fastened to a part of the barb wire fence. the hammer was lifted to a half-cock and then when all was in readiness Myers flung the coil at the stem of the blue steel. He missed it by a yard as he doubtless expected to do. Again he whirled his right arm about his head and an Instant later the slender rope was sphining through the air. Its noose caught the hammer as singly as though it had dropped over the head of n steer. There was a flash, a puff of smoke and n sharp exphsion. Zeke stood apright for a moment. Then ire tottered, and finally fell in the bunch grass, with a bullet squarely between the eyes. Myers was paralyzed with fear and terror. Ilad he attempted to rope the moon and succeeded he could not have been more surprised. Seizing the dead man about the waist he champion beet raiser. One that he dragged the manimate form to the pulled from his garden last week shack and told the story of his strange measured 30% inches in circumference experiment. The body was buried the and weighed 15 pounds. next morning, near the spot where It fell. Osborne and Flaherty, range hands at the Cross Bar, rode in to Cascade, accompanied by Myers, who promptly surrendered himself to the sherlff. It is not likely that he will be

will scareely be accomplished again.

A MODERN JONAH. Only Roland Was Swallowed by an Alli-

gator instead of a Whale. Roland, of New York, was in the city the other day, says the Rome (Ga.) Illustler. He enjoys the distinction of being the only person ilving who was swallowed by an ulligator The saurian swallows his prey whole and digests it at leasure, and it is to this characteristic that Roland owes his

When a boy his parents owned a whoter home near Sanford. Fla., which is near Dann's creek, where there are still more alligators than can be found any place else la Florida. At the time mentioned It was literally swarming with the huge reptiles, and the hargest ever killed were seenred here, one measuring over fifteen feet in length Young Roland had gone with h

parents to a point on the St. John's river near the month of Duan's creek.

and wandered away from them. Suddenly a hage "gator" emerged from a small take and started toward the creek, coming immediately by the place where the boy was seated on the bank kicking pebbles. The chile started to run but, stumbling, fel bead first immediately in front of the reptile, which swallowed him at once. Young Roland's screams were heard and the parents reached the scene just in time to see their son disappear down the huge throat of the saurism. The father, never dreaming that the lay was not killed, shot the alligator, th ball fortunately striking hlm la the eye and penetrating the brain. The feet of the boy were protrading from the month of the nlligator, and with the thought of only obtaining his remains for burlal, the reptlle was cut upen. There were signs of life, and after several hours of hard work the father succeeded in resuscitating the bey, the only serious injury being to his ankles, which had been crushed by the reptile's teeth when he was in the throes of death. Since that time Roland has been a cripple, but only to the extent of having to wear steel braces on his ankles.

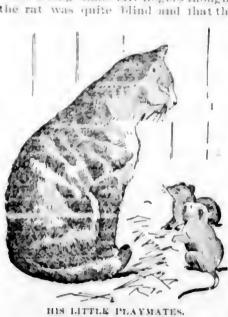

#### QUEER PLAYMATES.

A Large 'Cat Chooses a Half-Hilled Rat for Its Companion.
